Your Community is Kno2 Connected™

Submission of patient information just got a whole lot easier!

About the program

The demand for electronic health information exchange is growing along with nationwide efforts to improve the quality, safety, and efficiency of health care delivery. While it is great to have participants, it is paramount that submissions to your platform begin flowing as quickly as possible for all to reap the benefits of the exchange. Thus, Kno2 is committed to drive connectivity with simplicity for both prospective and participating members of the HIE, serving as a catalyst for connectivity efforts across the patient geographies you serve. We have done the heavy lifting! Connectivity is established, verified and enabled through a simple activation process. Connectivity is further enhanced for all Kno2 Connected EHRs.

Who is eligible?
Any organization looking to take advantage of proven, automated real-time submission to their local HIE. This is especially helpful in geographies where organizations are looking to satisfy member and/or state requirements.

Values and benefits of being Kno2 Connected

Connect. Kno2 has worked to streamline connectivity for all participants, optimizing the onboarding process from start to finish. This only gets easier when using a Kno2 Connected EHR.

Save. Minimal to no effort for connectivity, saving your organization time, money and human resources.

Share. Quickly share medical data, making it easier to collaborate on patient care to support better outcomes.

How to get connected

1 Reach out to your HIE community manager

2 Execute your participant agreement

3 Engage with your EHR account manager to take advantage of Kno2 connectivity

4 Activate your Kno2 account

5 Seamlessly begin submitting ADT or documents from your EHR without changing your workflows

Find out if your EHR is Kno2 Connected and all the other ways Kno2 can help with your clinical workflows.
