

PointClickCare® Faxing, Connected by Kno2™

Integrated fax workflows within PointClickCare

Kno2 provides PointClickCare customers the only cloud fax solution designed and integrated specifically for PointClickCare workflows! Using Kno2, post-acute providers eliminate long-standing frustrations with faxing documents, including the cost of fax technology, excessive manual labor, clunky workflows and document latency.

Complete Integration

Resident and document type lookup so documents are downloaded directly into resident's MISC tab.

Document Management Tools

Whether it's fax, scan or import, multiple users can perform document QC, document breaking, page deletion and file back into the resident's chart.

Security

Kno2's communication platform is HITRUST r2 Certified, encrypted at rest, in transport and fully audited!

Kno2 Integration Features

- ✓ Integrated Send/Receive workflows
- ✓ Workflow routing and filtering rules
- ✓ Track the fax for document signature workflow
- ✓ Integrated eSigning
- ✓ Unlimited faxing
- ✓ Port/keep your fax number
- ✓ Sign on with SSO or PointClickCare credentials

It's time to eliminate manual fax workflows and expensive fax technology today!

"We are now 85% fully modernized electronic faxing and Kno2 was the multi-million-dollar ROI for Symphony."

Nathan Patrick Taylor
Chief Information Officer, Symphony
